Notice to the Public.  
Clifton, Arizona, January 1, 1912.  
Clifton, Arizona, January 1, 1912.  
Violation of Law to Forward Explosives in Packages of Household Furniture by Freight Trains.  
It has come to the attention of the Bureau of Explosives, American Railway Association, that many of the users of explosives, and especially miners who are foreigners not conversant with the English language or the requirements of the federal law, are in the habit of including packages of explosives in their baggage checked in the usual way on a passenger train and in packages of household furniture shipped in the usual way by freight.

The federal law strictly forbids a concealed shipment of explosives or the transportation of explosives on passenger trains even when declared. Packages of explosives must be packed in their regular shipping containers properly marked and accompanied by shipping orders of the usual form. The penalty provided for violations of the federal laws are severe and may equal a fine not to exceed \$2,000 with or without imprisonment not to exceed 18 months.

Many violations of the kind described above have been reported and in all such cases where the evidence was sufficient to warrant conviction prosecutions have been started. Guilty parties even when their action was due to ignorance have been fined and imprisoned; ignorance is no excuse for a violation of this kind.

As examples, it may be stated that miners and other parties have taken kegs of blasting powder and even packages of loose sticks of dynamite mixed with blasting caps all wrapped in loose paper packages into the smoking car of passenger trains. In other cases, wash tubs and barrels supposed to contain only household goods have been found to contain loose powder and sticks of dynamite.

This is a matter that affects public safety and this information should be used not only by parties to prevent their own practice from being in violation of the law, but each person should do all in his power to spread this information in the interests of public safety and to prevent violations by all parties.

A. T. THOMSON,  
General Superintendent
